Summary

Data Analyst with experience in transforming 100,000+ row datasets into actionable business insights. Skilled in SQL, Python, and building interactive Power BI dashboards to optimize operational workflows.

Skills

Programming & Querying: SQL, Python

Data Visualization Tools: Advanced MS Excel, Power BI, Tableau

Analytical Abilities: Data Cleaning, Exploratory Data Analysis (EDA), Insight Generation, Descriptive Statistics

Experience

Data Analyst Intern

February 2026 – Present

Unified Mentor Pvt. Ltd. (Work From Home)

Tools: Python, Excel, Tableau, Statistics, ML(Model)

- Engineered a Machine Learning recommendation system using Python to process 100,000+ rows of logistics data, standardizing shipping routes and optimizing factory reallocation for Nassau Candy.
- Conducted Factory-to-Customer Shipping Route Efficiency Analysis, designing smart Excel templates with lookup functions and pivot logic that saved 40% in reporting time.
- Developed and maintained interactive Power BI dashboards to visualize shipping performance, route bottlenecks, and reallocation metrics.
- Collaborated with cross-functional teams to define and validate logistics KPIs, applying statistical methods to ensure data reliability and strategic alignment.

Projects

Factory Reallocation Shipping Optimization System | *Python, Streamlit* | [GitHub](#) February 2026 – March 2026

- Built a predictive decision intelligence system using Python to optimize factory-to-product assignments, balancing efficiency with profitability.
- Developed and evaluated predictive models (Random Forest, Gradient Boosting) to forecast lead times using RMSE, MAE, and R-squared metrics.
- Designed an interactive Streamlit web application featuring a What-If Scenario Simulator for lead-time visualization.

E-Commerce Sales and Logistics Analytics | *MySQL, Power BI, DAX* | [GitHub](#) February 2026 – March 2026

- Architected a relational database in MySQL to ingest 100,000+ rows of Olist e-commerce data.
- Engineered Power BI dashboards featuring a custom DAX DateTable for Time Intelligence tracking.
- Uncovered operational bottlenecks by visualizing the correlation between delivery times and freight values.

HR Analysis- Roles and Responsibilities | *Python, Power BI*

April 2025 – May 2025

- Built interactive Power BI dashboards, improving HR metric visibility by 40% across attrition, tenure, and performance.
- Processed 5,000+ employee records, achieving 98% data accuracy through Power Query and custom DAX KPIs.
- Automated report refresh and publishing, cutting manual reporting time by 50% while improving retention strategies by 15%.

Awards & Certifications

- **Advance Data Science With Python – Nasscom (2025):** Scored 88%.
- **GenAI Powered Data Analytics – Tata (2025):** EDA, risk profiling, and AI-driven collections strategy.
- **Data Science Training:** Innomatics Research Labs (2024-2025).
- **Yes Pulse Club:** Volunteer (2022-2024).

Education

Gitam College, Andhra Pradesh <i>M.Sc. Data Science (CGPA: 6.9/10)</i>	Andhra Pradesh, India <i>Graduated: 2024</i>
Gitam College, Andhra Pradesh <i>BCA: Bachelor of Computer Applications (CGPA: 6.9/10)</i>	Andhra Pradesh, India <i>Graduated: 2022</i>
